

Boss

INSTALLATION INFORMATION

Perfect for coffee lovers that want fresh milk. With so many options it's no surprise the Boss is a favourite.

POWER:	2 x 13 amp plugs above the counter top and within 1m of where machine is situated
WATER:	15mm copper terminating in a 3/4 washing machine valve in cupboard below where machine will be situated
WORKTOP:	40 mm hole 50mm from the back wall behind where the machine will be installed if you are installing liquid waste. If there is no liquid waste, the hole can be 12mm, 50mm from the back wall. This will connect the water pipe from the cupboard below to the back of the coffee machine. The Office Coffee Company will drill the hole when the coffee machine is in place only when the worktop is standard laminate or MDF – not Corian, marble, or stone.
WASTE:	32mm trapped vertical waste outlet in cupboard below (optional).
